

## 2008 8-Hour Ozone

County Name	Area	Date Designated Nonattainment	Effective Date of Nonattainment Designation	Nonattainment Classification Type	State Implementation Plan Due	Attainment Date	Date Reclassified to Attainment w/ Maintenance Plan	Date Maintenance Plan is to be Revised	Notes
Dearborn	Lawrenceburg Township	4/30/2012	7/20/2012	Marginal	Not applicable for areas classified "marginal"	7/20/2015			<p>Final redesignation petition and maintenance plan submitted on 2/23/16.</p> <p>Final rulemaking for revision to Emissions Reporting Rule, LSA Document #16-162, published in the Indiana Register on 11/17/16.</p> <p>Letter requesting approval of the revisions to the rule submitted to U.S. EPA on 11/18/16. U.S. EPA's proposed approval of the revisions to Emissions Reporting Rule and redesignation petition and maintenance plan published in the Federal Register (FR) on 12/27/16 (81 FR 95080) and (81 FR 95081). Public comment periods for these rulemakings end on 1/26/17.</p>

## 2008 8-Hour Ozone

County Name	Area	Date Designated Nonattainment	Effective Date of Nonattainment Designation	Nonattainment Classification Type	State Implementation Plan Due	Attainment Date	Date Reclassified to Attainment w/ Maintenance Plan	Date Maintenance Plan is to be Revised	Notes
Lake	Entire County	5/31/2012	7/20/2012	Marginal	Not applicable for marginal classification	7/20/2015			<p>On 5/4/16 U.S. EPA determined that Lake and Porter counties failed to attain the standard by the applicable attainment date of 7/20/2015, and were reclassified "Moderate" for the 2008 ozone NAAQS with an attainment date of 7/20/18.</p> <p>Please see <a href="#">81 FR 26697</a> for additional information regarding this matter.</p> <p>Attainment demonstration and technical support document, including, 15% rate of progress plan and 3% contingency plan and Section 182(f) NO<sub>x</sub> exemption request letter for Lake and Porter counties completed and are out for public comment. Deadline to request a public hearing is 2/10/17. Public comment period ends 2/17/17.</p>
		5/4/2016	6/3/2016	Moderate	1/1/2017	7/20/2018			

### 2008 8-Hour Ozone

County Name	Area	Date Designated Nonattainment	Effective Date of Nonattainment Designation	Nonattainment Classification Type	State Implementation Plan Due	Attainment Date	Date Reclassified to Attainment w/ Maintenance Plan	Date Maintenance Plan is to be Revised	Notes
Porter	Entire County	5/31/2012	7/20/2012	Marginal	Not applicable for marginal classification	7/20/2015			<p>On 5/4/16 U.S. EPA determined that Lake and Porter counties failed to attain the standard by the applicable attainment date of 7/20/2015, and were reclassified "Moderate" for the 2008 ozone NAAQS with an attainment date of 7/20/18.</p> <p>Please see <a href="#">81 FR 26697</a> for additional information regarding this matter.</p> <p>Attainment demonstration and technical support document, including, 15% rate of progress plan and 3% contingency plan and Section 182(f) NO<sub>x</sub> exemption request letter for Lake and Porter counties completed and are out for public comment. Deadline to request a public hearing is 2/10/17. Public comment period ends 2/17/17.</p>
		5/4/2016	6/3/2016	Moderate	1/1/2017	7/20/2018			

Primary and secondary 8-hour ozone standards were established in 1997 and set at a level of 0.08 parts per million (ppm). The standards were finalized by U.S. EPA on July 18, 1997 and became effective on September 16, 1997 (62 FR 38856). All other Indiana counties not listed above were designated unclassifiable/attainment under the 8-hour ozone standard.

On March 12, 2008, U.S. EPA lowered the 8-hour ozone standard to a level of 0.075 ppm. The standards were finalized by U.S. EPA on March 27, 2008 and became effective on May 27, 2008 (73 FR 16436).

Attainment of the 2008 8-hour ozone standard is determined by evaluating the three-year average of the fourth highest daily maximum 8-hour average ozone concentration measured at each monitor within a nonattainment area over each year, which must not exceed 0.075 ppm.

On October 1, 2015, U.S. EPA further strengthened the 8-hour ozone standard to a level of 0.070 ppm. The standards were finalized by U.S. EPA on October 26, 2015 and became effective on December 28, 2015 (80 FR 65292).

Attainment of the 2015 8-hour ozone standard is determined by evaluating the three-year average of the fourth highest daily maximum 8-hour average ozone concentration measured at each monitor within a nonattainment area over each year, which must not exceed 0.070 ppm.
